

Nonprofit Overhead Project

It's time to change how we think about nonprofit overhead.

Getting your overhead funded: a series of workshops

Recently the OMB (Office of Management and Budget) released a new Uniform Guidance which mandates a minimum of 10% overhead in government-nonprofit contracts that include federal dollars, along with other changes in direct/indirect cost classification and approved purchasing procedures. This gives nonprofits a perfect opportunity to start talking about overhead and the real cost of programs. CalNonprofits and consultant Kay Sohl have designed three workshops to help nonprofits get their overhead costs funded with opportunities to learn in person or via webinar. Presenter Kay Sohl is a licensed Public Accountant who has devoted the last several years to helping nonprofits and government navigate the financial aspects of their relationships.
